Subj: ELEVENTH COAST GUARD DISTRICT AREA CONTINGENCY PLAN;
LETTER OF PROMULGATION

1. As mandated by the Oil Pollution Act of 1990 (OPA 90), the 1996 revision of the Area Contingency Plan has been completed and is now effective upon receipt. It remains in effect until superseded.

2. This edition of the Area Contingency Plan (ACP) has major changes, the most important being the creation of a single plan covering the entire Eleventh Coast Guard District area of responsibility. This edition combines all ACPs from the San Francisco, Los Angeles/Long Beach, and San Diego Captain of the Port Zones. The central plan consists of annexes "a" through "m", three of these containing geographic specific information. The central plan covers information pertaining to all regions of California. The geographic specific annexes, "e", "f", and "j" cover information pertaining to specific sectors of each COTP zone.

3. The 1996 edition of the ACP is now available to the public via the internet at <http://www.tcpet.uscg.mil/d11acp>. Publication on the internet allows the ACP to be updated quickly as important information changes. Periodic updates will be posted and recorded as they occur by D11(Pm). Hard copies of the ACP are still available by contacting Sir Speedy Printers at 562-435-2564 or fax 562-495-1087.

4. Comments and recommendations regarding this plan are welcome and should be submitted through the Area Committees.

A handwritten signature in dark ink, appearing to read "R. T. RUEE, JR.", written over the printed name.
R.T. RUEE, JR.
